*to name a few

Kitchens, as they should be!

Chimneys with Silent Inverter Motor

Designed to deliver ultra-low noise performance (up to 10dB lower than conventional chimneys), Crompton chimneys have a powerful inverter motor at the heart of it.

Hobs with full brass burners

Our hobs are fitted with full brass burners making them suitable for versatile cooking. The innovatively designed digital timer hobs allows you to switch off the hob at pre-set time.

Dishwasher with PureBeam + Technology

Keep all your utensils 99.99%* bacteria-free and odour-free after every wash with our PureBeam+ technology. High grade stainless steel in our tub is rust and corrosion free that makes Crompton dishwasher perfect companion for Indian utensils.

Ovens with steam assisted cooking Technology

Steam assisted cooking and 3D heating features of our ovens delivers perfect baking results. What's more, the pyrolytic and steam cleaning features take away the hassle of cleaning the oven.

Microwaves and warmer drawer with full black tempered design Technology

Our microwaves and warmer drawers come with full black tempered glass design, 8 Auto menus and soft touch control. Accessories like baking pan, grill pan, and grill rack are an extra delight.

*As per test conducted by German Institute of VDE

Chimneys

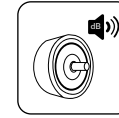

Chimneys that work like they should. Silently.

Our silent chimneys are powered with advanced inverter motor that offer high suction at reduced noise level. Intelligent in-built sensors enable our chimney to automatically clean themselves periodically providing hassle free operation and make your kitchen comfortable place while you enjoy the cooking.

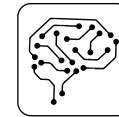

Crompton's Key Innovations

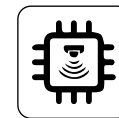

Silent Inverter Motors:

Designed and manufactured with the trust of Crompton engineering, our inverter motors with copper winding operate at surprisingly low noise levels. (up to 10dB lower perceivable noise compared to conventional chimneys), offering 9 speed levels with a maximum suction capacity of up to 2000 m³/hr*. Make your kitchen a comfortable and pleasure place to enjoy, as it should be!

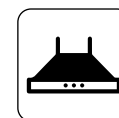

Intelli AutoClean:

Crompton's intelligent AutoClean system automatically turns on the Auto Clean Mode after 30 hours of chimney operation. The high-temperature heating element melts the oil and grime which flows down in an oil tray; all you have to do is empty and clean the tray. So, relax and enjoy the cooking while we take care of the cleaning.

SmartON:

Crompton's innovative chimneys also include the exclusive SmartON feature. This function has advanced sensors that detect a temperature change once you begin cooking and switch ON the chimney. Even if you forget to turn on your chimney, you'll have a smoke-free and worry-free cooking experience.

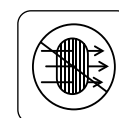

Elegant style:

With the trust of Crompton Engineering accompanied with superior build quality, our chimneys are a sight to behold and a delight to operate. The premium design and minimalistic appearance complement urban Indian kitchen designs. The LED lights in the chimney prevent the chimney from overheating. A large touch panel and an easy-to-use user interface have been built for your convenience.

Gesture Control:

Crompton's specially designed Gesture Control Function senses hand gestures and uses intelligent motion sensors to activate/deactivate specific functions on your chimney, offering you to experience touch-free operation.

Filterless Technology:

Say No to tedious scrubbing and cleaning of filters, Our modern chimneys incorporate Filterless technology*. Oil and grease released during cooking is gathered in a tray that can be cleaned on a regular basis depending on usage, making chimney maintenance and cleaning a simple and easy process.

*Available on selected model

Suction mode:

Crompton chimneys comes with different levels of suction modes.

Turbo Suction

Models with Turbo suction offer maximum extraction capacity of up to 2000 m3/hr* at highest fan speed to quickly eliminate odours and smoke. This keeps cooking-induced odours at bay in your kitchen.

Booster Suction

Enabling Booster suction mode revs up speed of blower fan to maximum speed delivering increased suction capacity of up to 1700m3/hr*, allowing you to remove smoke from your kitchens more effectively and quickly.

Rapid Suction

Models with Rapid suction offer suction capacity up to 1600 m3/hr*, extracting smoke and oil fumes quickly, so you can enjoy cooking without worrying about your health.

*Suction capacity will vary from model to model. Features and specifications are subject to change without prior notice. Mentioned Suction level in Cubic meter hour (CMH) or m3/hr is measured at the highest operating fan speed on the inlet side of the cooker hood/chimneys
Above specifications are measured under standard lab conditions and have tolerance of +/- 10%. Also, these values may vary as per product usage.

GrandArt

Make your kitchen grander with our GrandArt chimneys, which are tastefully crafted to add a touch of beauty to your kitchen. With a large user-friendly touch panel and intuitive features like intelligent Auto clean and gesture control, you can have complete control over your chimney & a enjoyable cooking experience.

Features may vary from model to model. Features and specifications are subject to change without prior notice.
* - Mentioned Suction level in Cubic meter hour (CMH) or m3/hr is measured at the highest operating fan speed on the inlet side of the cooker hood/chimneys
** - Mentioned Noise level is the lowest sound pressure level measured in dB(A) for the lowest operating speed of the cooker hood/chimneys.
Above specifications are measured under standard lab conditions and have tolerance of +/- 10%. Also, these values may vary as per product usage.

GrandArt Series

Model: CHD-GAL90BFE-INX
Grand Art Island90 Baff Inox

₹ 68,990

Features: Thermal Auto Clean, High suction speed, touch control, 3 Speed

Size: 90 cm
Max Suction*: 1350 m3/hr
Motor: Copper Induction
Filter Type: Baffle
Min Noise Level** - 49 dB
Net Dimensions: W x D x H (mm): 895 X 600 X 660
Warranty: 2 yr On Product, 10 yrs on Motor

Model: CHD-GAVB90FLE-MBL

Hobs

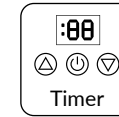

Give your kitchen the best choice of hob it truly deserves.

Put an end to your worries about not turning OFF the hob on time! With our digital timer hobs, pre-set the timer and our hob gets the the job done for you. Our hob have full brass burners, multi-rings, and 3D flame technology, making them suitable for a large variety of cooking, from slow to high heat.

Crompton's Key Innovations

Digital timer in wok burner*

Now, no worries about switching OFF the hob! Get consistent cooking results with our OpTime hobs, just set the timer and our hob gets the job done for you.

3D Flame Technology

With our high-efficiency 3D brass burners that ensure equal heat distribution throughout all corners of the vessel, you can cook every dish to perfection in less time. So that when it comes to serving Biryani, you spend less time preparing it and more time enjoying.

Flame Failure Safety Device

In the event of a spill, our smart-sensor enabled hobs automatically turn off the gas supply, ensuring your safety and peace of mind.

High efficiency full Brass Burners#

Our hobs include full brass burners for increased efficiency and consistent heat distribution, making them perfect for slow cooking as well. The brass design also ensures long life and high performance, saving you the trouble of having to replace your burners due to melting.

Brass Burners with multi-ring flame

Enjoy consistent cooking with our powerful Triple Ring Wok burners, which have three concentric rings of flame for increased strength and better flame dispersion. The outer ring enables high-heat cooking, while the mini ring allows slow cooking or simmering.

Cast iron pan support with enamel coating

Our hobs feature pan supports made of robust cast iron with an enamel coating. As a result, they can withstand larger loads without deforming.

All OpTime models have Pan support with flame guard

*Digital timer available in OpTime Series

#Full brass burners available only in OpTime

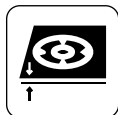

Toughened glass with beveled edges

The toughened glass of our hob can with stand heavy loads without giving up, and the bevelled edges keep the premiumness intact.

Premium heat resistant metal knobs

Our hobs comes with metal knobs with a superior look and feel that are durable and easy to operate.

Sleek and stylish

Our SuperSlim hobs are easy to install and comes in sleek, modern designs with edges as thick as a book, making them one of the most eye-catching kitchen upgrades you can make. Not only that, but you won't have to cut the slab to install the SuperSlim hobs in your kitchen.

Auto-ignition

Lighters will become a huge no-no with our auto ignition hobs that light up on their own.

OpTime

Now, no worries about switching OFF the hob! Get consistent cooking results with our OpTime hobs, just set the timer and our hob gets the job done for you.

Dishwasher

Perfect companion to clean Indian Utensils.

Our dishwashers feature PureBeam+ technology and steam wash to easily remove oil, grease, and stubborn stains from utensils while saving water. Compton Dishwashers are therefore built for multi-directional targeted cleaning and turbo drying with pin-point accuracy, resulting in a 99.99%* germ-free utensils.

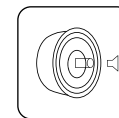

Crompton's Key Innovations

PureBeam+ Technology

Crompton dishwashers use a combination of UV Beam and Ionizer technology to ensure bacteria-free dishes. The UV beam eliminates post-wash residual germs, while the ionizer's deodorising effect keeps your dishes smelling clean and fresh.

HydroPower Inverter Motor

Hydro power wash mode is designed to give greater performance with reduced noise (44dB*) thanks to inverter motor technology. It introduces new and diverse ways to wash dishes by utilising variable pump pressure. As a result, the wash quality improves every time.

Intelligent Turbo Drying

Crompton dishwashers have a Turbo drying mechanism that eliminates the need to wipe the dishes after washing. The steam is completely drawn out of the dishwasher with the help of an additional fan support mechanism, resulting in completely dry dishes with no water droplets.

Hygiene Wash

Our Hygiene wash feature helps you eliminate 99.99%* of all bacteria, that is tested and approved by International German Test Institute of VDE, by heating water up to 70°C, before using it for the purpose of cleaning dishes; ensuring highest level of hygiene during every wash.

Steam Wash

Water is heated up to 70°C to create steam inside and softens up the crusts and leftovers from pots, pans, Kadhais to fragile glasses. That's not all, the dishes are gently sanitized at the same time. The directly applied steam ensures perfect hygiene and gentle cleaning for dishes. It can also be combined with Extra dry function for perfect drying results.

Stainless Steel Inner body

Our dishwashers are created with Rust & Corrosion free high grade SS inner body for hygienic wash and longer life.

*Tested and approved by International German Test Institute of VDE

Available in selected models only

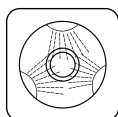

Saves water upto 85%#

Did you know that washing utensils by hand could use up to 60 litres of water? With Crompton Dishwashers, there's no need to be worried about wasting water. Our dishwashers consume only 9ltrs of water against regular handwash that consumes 60ltrs of water for same load

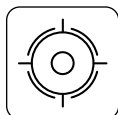

QuickClean function

Our dishwashers deliver A-class washing results with an advanced washing cycle in only 50 minutes, saving you time and hassle from having to wait longer for ideal cleaning results.

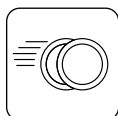

DualPro Wash

Customized DualPro wash programme allows for one-wash cleaning at two different water pressures to remove oil and stain marks from utensils such as Kadhai, Pressure Cooker, Serving Pot, Saucepan, and others, resulting in completely clean utensils free of foul odours and stains. It can also be used in combination with the Extra Dry feature to provide optimal drying results.

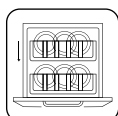

Smart wash

Our dishwashers comes with Smart sensors that intelligently analyze the degree of turbidity in the water and adjust the water, detergent, and rinse aid consumption as needed.

ExtraFast Option

Reduces programme duration by up to 50% while increasing water temperature and pressure without compromising washing performance, resulting in 3x faster rinsing with optimal cleaning and drying efforts.

FlexiRack

The multi-stage rack support can be adjusted to fit taller plates on the middle rack while still leaving room for pots and pans below. Height can be adjusted both with and without a load.

- Available in selected models only

Inside view of Crompton dishwasher

- 1

Third rack - A cutlery tray for spoons, knives and small dishes.
- 2

Upper basket – This compartment is ideal for placing variety of light crockery, delicate dishes and wine glasses.
- 3

FlexiBasket – Maximum flexibility and easy loading. The upper basket can be adjusted to different levels to load taller items on any rack.
- 4

Stainless steel inner tub – High grade stainless steel tub is rust and corrosion free. It's durable, quieter and stays cleaner than conventional dishwashers
- 5

Salt dispenser – Dishwasher salt neutralizes the effects of hard water with in built water softener system.
- 6

FlexiRack – Foldable racks on upper and lower basket to load the dishes your way. Whether it's a pan on the top rack or a bowl on the bottom
- 7

Spray arms – The upper and lower spray arms rotates when dishwasher is operational. Specially designed to create rectangular washing zone(20% more spray zone than conventional spray)
- 8

Two additional spray arms – Removes most difficult dirt and offers multi-directional powerful clean. They can work together both with main spray arm and individually.
- 9

AntiBacterial Filter – Filtration system with a high filtration rate better than metal and plastic filters for best dishwashing results
- 10

Lower basket – This compartment is perfect for cleaning large crockery like pots and pans This basket is exposed to the highest spray pressure and water temperature for maximum cleaning performance.
- 11

Detergent/Tablet Dispenser -Dosage compartment for dishwasher tablet and powder.
- 12

PureBeam – UV technology to eliminate 99.99%* bacteria and Ionizer for odour removal.
